

EXPANSION OF THE ST AUGUSTINE HIGH SCHOOL CAMPUS THROUGH THE CONSTRUCTION OF SEVERAL CLASSROOMS

Isingiro, Kagera
region, Tanzania

Current situation

Public schools, especially those in the more rural areas of the country, have difficulty meeting the basic standards required. Poor infrastructure and crowded classrooms, as well as poorly trained teachers are some of the reasons for this.

The Diocese of the region (through its development organization) seeks to play its part in the education sector by ensuring that all human beings enjoy their right to education. It also aims to make a significant contribution to the national growth and poverty reduction strategy, which focuses on improving access to quality education services.

Local Partner: KADDRO - Kayanga Diocesan Development and Relief Office

Background

With this project, AMU wants to support its local partner in the creation of sustainable structures in the field of education. The school's management expects the enrollment rate to increase from 60% to 80% by 2027. Infrastructure is therefore crucial to ensure the proper functioning of the school.
